Brite lives

Our decorative laminates are an integral part of Pakistan furniture industry. Used by being pasted on to any furniture made with plywood, plain particleboard and MDF, they impart great looking finishes and heighten the aesthetic value of the furniture. The advantage of the laminates is that any colour and design combination can be used to create exactly what you've dreamed of. This freedom from design constraints makes it the first choice of those who are looking to renovate their lives.

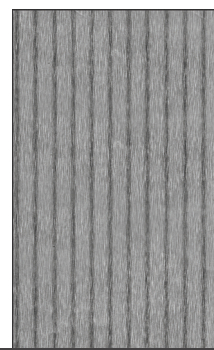

Platinum is top number one seller and exporter of premium and luxury range of decorative panels offering versatile options. Our organization is a first company in Pakistan to offer multiple surface designs options for various segments of the industry. The products are custom designed for each segment from furniture industry to commercial buildings and household kitchen and decorative uses.
